The GROW BIOINTENSIVE Agriculture Centre of Kenya (G-BIACK) offers internships to people from any nation who wish to become more knowledgeable and sustainable organic farmers; and people working in community development who come for capacity building as trainers of farmers

Our internship programme is flexible. The goals and time constraints of interns vary widely. Our staff is skilled at adapting programmes and content to fit each intern's needs. Length of internship can be as short as a week or last several months up to one year. People from many countries around the world have participated in G-BIACK's internship programme, including Mexico, USA, Rwanda, South Sudan, Nigeria, Malawi, and Tanzania.
