Grace Mutindi, Mary Mbutha, Lucy Njoki and Herman Njoroge

SHOW ME HOW TO DO IT AND I WILL NOT GO HUNGRY TOMMOROW

If safe and sustainable food production is taught and demonstrated to the young ones, then we will be assured of food security in the future. Children therefore need a chance to actively participate in safe and healthy food production activities. For this reason, G-BIACK has continued to champion for schools' and institutions' kitchen gardens under our program, Bio-intensive Agriculture for Schools (BAS).

Children from orphanages learn the GROW BIONTENSIVE agriculture methods which they may use in their centres and in their homes and later in life to set up gardens. This learning not only equips the children to become independent in the future, but also protects the institutions they live in from food insecurity throughout the year.

Children from Kiota children's home Thika learning how to grow their own food

G-BIACK is a registered CBO in Kenya and donations are tax-deductible.

Donations of any amount help us to reach out to vulnerable families; contributions may be made through Network for Good on our web site. In addition, checks payable to Kilili Self Help Project may be written and sent to 260 Marion Ave., Mill Valley CA 94941 USA. 100% of every donation made through Kilili Self Help Project will be sent to G-BIACK for our programmes (also tax deductible).
