## Farmers Exchange Visit

The farmer exchange visit began with members of the Ndonyo Community traveling to Githima Community on 3<sup>rd</sup> July 2025 to learn from their farming practices, share experiences, and explore locally-driven solutions in sustainable agriculture. This initial visit fostered valuable peer learning and strengthened the relationship between the two communities. Building on that exchange, the Ndonyo farmers later visited G-BiACK, where they toured the demonstration farm and engaged in an interactive dialogue on the **Seed and Plant Varieties Act (Cap 326)**, indigenous seed conservation, seed sovereignty, and the vital role of farmers in shaping sustainable food systems.

## Harvest

Busy in the fields bringing in fresh Tomato harvests

Featured: Kennedy Kiprotich at the G-BiACK booth in Nairobi.

G-BiACK is participating in the 2nd National Agroecology Symposium held in Nairobi, organized by PELUM Kenya. As a proud member organization, we joined the event as

exhibitors, today (10th July 2025) and tomorrow (11th July 2025). We are showcasing our work in promoting agroecological practices, indigenous seeds, and sustainable farming. The symposium provides a great platform to connect with like-minded organizations, share experiences, and engage in critical conversations around food systems transformation in Kenya.

STUDENT OF THE WEEK

MERCY WANJIKU

30TH JUNE - 05TH

JULY

2025

## QUOTE OF THE WEEK

“ Gardening is the most profound act of hope, where every seed planted is a quiet belief in tomorrow.

## VERSE OF THE WEEK

“ Let us not become weary in doing good, for at the proper time we will reap a harvest if we do not give up.

**Galatians 6:9 (NIV)**
