A Transformative Week with Action Aid Farmers

This week, G-BiACK is hosting a group of visiting farmers supported by ActionAid. They are spending several days learning hands-on skills in sustainable farming, soil health, seed preservation, and ecological practices that can strengthen food security in their communities.

THIS BEING THE LAST ISSUE OF GB-NEWS THIS YEAR, WE WOULD LIKE TO THANK YOU FOR ALWAYS BEING OUR READER. MERRY CHRISTMASS AND HAPPY NEW YEAR 2025.

QUOTE OF THE WEEK

“A healthy life begins with a healthy environment; nurture the soil beneath you, and it will nurture your future.

VERSE OF THE WEEK

“The Lord God took the man and put him in the Garden of Eden to work it and take care of it.

GENESIS 2:15

Happy Holidays

Farmers Celebrated for Exceptional Adoption of G-BiACK Practices

On December 10 2025, we celebrated a remarkable group of farmers who have consistently applied G-BiACK’s training with dedication and skill. These award recipients have shown what is possible when knowledge meets commitment, transforming their farms and inspiring their communities in the process. Their achievements reflect the strength of farmer-led learning and the impact of sustainable agriculture in everyday practice. Congratulations to all honorees for raising the bar and showing what true excellence looks like.

Curriculum Team Meets at G-BiACK

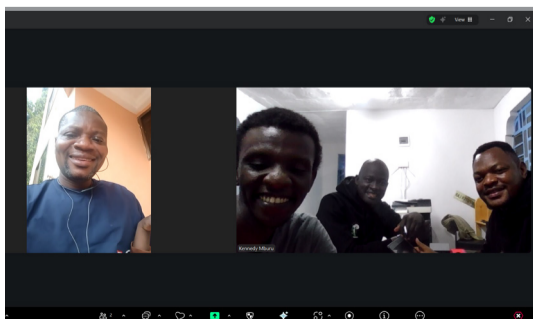

THEME: Agroecology for Healthy Soils, Healthy Foods; Healthy Communities

8TH December, 2025

Waruhiu Agriculture Training Centre
9:00am - 2:00pm

This week, G-BiACK is hosting a curriculum committee made up of trainers, educators, and partners from Connection Ubuntu. The team is working together to design a new curriculum for computer labs supported by Connection Ubuntu. The goal is to create a practical and up-to-date program that helps learners build real digital skills, from basic computer use to the tools needed for today’s job market. The committee is spending the week reviewing ideas, sharing experiences from the field, and shaping a curriculum that can support communities to grow through technology.
